

## My sister once died

*Jenny Webb*

My sister once died,  
alone, on the operating table.  
They brought her back of course  
—no harm done—  
but I wonder if the sorrow she keeps tucked  
beneath her lashes  
is there because she now knows divine rejection,  
or because upon resuscitation  
she received  
one too many  
shocks to the heart.
